

# KEEP YOUR COOL WITH A HOT INCENTIVE THIS SUMMER

## ENERGY INCENTIVES TO KEEP COOL

Does your central air conditioner need some TLC? Air conditioners can lose up to 5 percent of their original efficiency every year if they are not serviced.

That's why we offer a \$25 cash rebate to get your A/C tuned up by a professional service technician. You'll use less energy because your air conditioner will run more efficiently.

And don't forget to regularly replace air conditioning filters. A dirty filter will slow down air flow and make the system work harder—wasting energy. This is your chance to stay cool—and take the heat off your wallet.

## PROGRAM REQUIREMENTS

To receive the \$25 cash rebate the following program requirements must be met.

- The Central Air Tune-Up Discount Program is available only to residential customers with a valid Columbus Utilities electric account.
- **Only central air conditioning units of 5 tons or less that have not had a tune-up within the last three years are eligible.**
- Qualifying inspections and tune-ups must include all items listed in the 12-point checklist and must be performed by a professional heating and cooling service technician.
- In no case will Columbus Utilities pay more than 100% of the actual purchase price of the central air conditioner inspection and tune-up.
- Qualifying inspections and tune-ups must be completed between 4/1 and 10/1.
- Please submit your rebate request by 10/1.

## HOW TO RECEIVE YOUR REBATE:

1. Complete the application form.
2. Attach original sales receipt or paid invoice.
3. Drop off the application at Columbus Utilities office, or mail it to the address on the form.

## NOTE:

Applications are accepted on a first-come, first-serve basis, until allocated funds are spent. Tune-ups must be completed between 4/1 and 10/1.

## TERMS & CONDITIONS

- Columbus Utilities makes no warranties, expressed or implied, with respect to any equipment purchased and/or installed including, but not limited to, any warranty of merchantability or fitness for purpose.
- In no event shall Columbus Utilities be liable for any incidental or consequential damages.

## COOLING TIPS

Take these steps to increase the efficiency of your heating and cooling system.

- Keep air registers and vents clear of obstructions to allow air to flow freely throughout the room.
- Set your thermostat higher in summer.
- In cooling mode, each degree you set your thermostat above 75 degrees will save you about 3 percent.
- For convenience, install a programmable thermostat that automatically adjusts the temperature depending on the time of day and day of week, saving you more than \$100 a year.
